Re: Administrative Settlement Agreement and Order on Consent
for Removal Action at the Highway 89 Storage Units Site -
EPA Docket No. CERCLA-08-2010-0001

Dear Mr. Gosen:

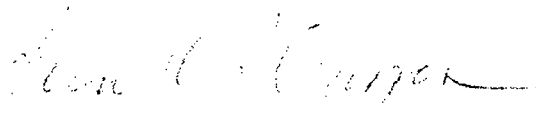

The above referenced Administrative Settlement Agreement and Order on Consent (AOC) was entered voluntarily by ATK Launch Systems Inc. (ATK) on November 17, 2009, for a Removal Action at the Highway 89 Storage Units Site. The Site consisted of three separated locations: a residence and two storage units in Box Elder and Weber Counties, Utah.

The U.S. Environmental Protection Agency (EPA) emergency response contractor conducted inventory, classification and segregation of over 7,000 chemical items found at the Site. Under the AOC, ATK and its contractor submitted a Work Plan for EPA approval and performed handling, storage, transportation and final disposal for all chemicals and materials found at the Site. The removal activities and sampling for verification at the storage units were completed by December 17, 2009. It is noted that sampling for verification at the residence was performed by the City of Ogden's safety personnel.

On March 18, 2010, ATK submitted copies of the Final Report for the Removal at the Site. EPA has reviewed the Final Report and concluded that ATK has performed satisfactorily in accordance with the Work, as the terms defined in the Administrative Settlement Agreement and Order on Consent for Removal Action (EPA Docket No. CERCLA-08-2010-0001). This letter is considered a notice of completion of the Removal Action at the Site.

Thank you for your attention and due diligence to this matter. If you have any questions regarding this closeout letter, please call me at (303) 312-6820 or contact me at nguyen.tien@epa.gov.

Sincerely,

A handwritten signature in dark ink, appearing to read "Tien H. Nguyen", with a long horizontal flourish extending to the right.
